

DEPARTMENT OF COMPUTER TECHNOLOGY NEWSLETTER

Term: Winter, 2018

VISION

To achieve Quality Education to deal with rapidly changing technologies which produce creative manpower those who can address the global challenges and excel at an International Level.

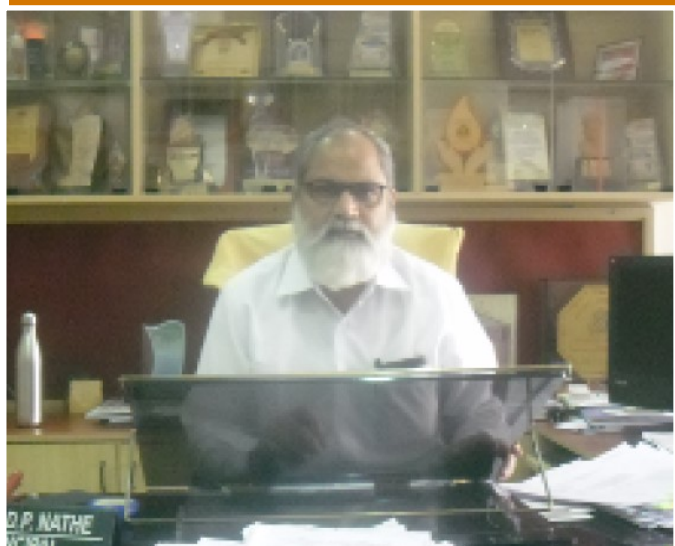

MISSION

Department of Computer Technology is committed:

- M1.** To make the student to Anticipate and respond effectively.
- M2.** To develop innovative skills and act robust and reliable ways to solve the Engineering problems ethically with Integrity.
- M3.** To secure technological and decision-support services and applications to inspire student.
- M4.** To empower employers, stake holders and ultimately advance the state of education in the nation.
- M5.** To encourage student for employable, entrepreneurial and life long learning skill and develop leadership skills with social sensitivity.

FROM THE PRINCIPAL'S DESK

The successful 'Newsletter' of CM Dept. has been published and so, I congratulate to Head of Department, Faculty and the students for it. They have not only achieved success in academics but also in various sports, technical & cultural competition where their success is the pride of the department. For the overall department of the students each and every part of the department has done its duties successfully which also is appreciable. For glorious destination of CM department a newsletter is another ladder of success.

FROM THE HOD'S DESK

CM Engineers are now widely recognized as an essential source of tools & techniques for advancement in nearly all spheres of human endeavor. The aim of the Department is to motivate young professionals in building cognitive characteristics and improve the rising engineers with latest trends in technology. The Programme focuses on Training of latest software, online Live Projects, motivational for learning, intellectual efficiency & self-reliance which provides the best foundation for continuing professional achievements.
